

Premium Camera Lens Protector

Strong Protection with Anti-reflective and ClearPrint® technology

Discover the Premium Camera Lens Protector - 3X stronger than traditional protection. Featuring ClearPrint® and anti-reflective technology for ultimate clarity and defense against scratches and impacts.

3X
Stronger¹

Precise Fit

Maximum Scratch Protection

ClearPrint® Technology

Anti-reflective Technology

- 3X stronger than traditional screen protection.¹
- **Precise Fit:** Low profile Individual rings with black metal frame, protects your lens from scuffs, scratches, dust, moisture, and anything else that gets in the way of the perfect shot.
- Ion exchange technology increases surface compression for increased strength and scratch-resistance.
- This revolutionary, oil-dispersing treatment exclusive to ZAGG Glass disperses the oil from your fingerprints, making them nearly invisible.
- Contains anti-reflective treated layers that are designed to cancel out the reflected light while allowing transmitted light through to maximize clarity.
- EZ Apply® system makes applying your screen protector simple and accurate.
