- Protect the camera lenses on your iPhone with ZAGG Glass lens protection. This tempered glass is 5X stronger to protect against shatters and scratches. Edge-to-edge coverage and pristine clarity with ClearPrint.
- Edge-to-edge coverage means non a-single bit of your camera lens is exposed to impacts.
- This revolutionary, oil-dispersing treatment exclusive to ZAGG disperses the oil from your fingerprints, making them nearly invisible.
- Contains anti-reflective treated layers that are designed to cancel out the reflected light while allowing transmitted light through to maximize clarity.
