PROTECTION

- Powerful aluminosilicate glass protects your screen from scratches and shatter damage better than traditional glass screen protection.
- Reinforced edges prevent chipping, and their beveled shape seems to disappear into the screen.
- Smooth tempered glass with reinforced beveled edges gives you maximum HD image clarity and precision touch sensitivity.
- It's long-lasting, oil-resistant technology prevents fingerprint smudges to help keep your screen pristine.
- Smart EZ Apply[®] tabs make application bubble free. Simply align it, press it, and watch as glass does the rest.
