WEIGHT	425 g
IN THE BOX	USB-C PD fast charge portable battery - 20,000mAh / USB-C to USB-C cable
WARRANTY	2 Years
COLOUR & PART NUMBER	● Black 401112178 ○ White 401112179

Detailed Description:

- The mophie powerstation 20K is a fast and portable power solution designed for users on the go. With its sleek and compact design, this piece offers a convenient way to charge your devices whenever you need it, providing enough portable power to charge your devices up to three times¹. Whether you're traveling, working remotely, or simply out and about, this power bank ensures you stay connected and powered up.
- Featuring a USB-C PD 20W output, allowing you to charge your devices at the fastest speed possible — In just 30 minutes, you can get up to 50% battery on compatible devices, saving you time and keeping you productive.
- The powerstation 10K is designed with portability in mind. It easily fits into your bag, making it convenient to carry around for a quick charge on-the-go.
- Not only can you use the powerstation to charge your devices, but you can also recharge the power bank itself in record time using the USB-C port. This ensures that your power bank is ready for your next adventure or emergency.
- With multiple USB ports, including 2 USB-A and 1 USB-C, the powerstation 20K allows you to charge up to three devices simultaneously, giving you all the versatility you need when juggling multiple devices.
- Overall, the mophie powerstation 20K is a reliable and efficient portable power solution that provides fast charging and convenience in a compact design. It is a great companion for those who are frequently on the move and need a reliable power source for their devices.

¹Number of charges are estimates based on wired charging, using a fully charged pre-production powerstation to charge an iPhone 14 Pro in default settings from 0-100%. Results will vary based on environmental factors, device settings and individual usage.

²Based on a 30-minute charge from versus a 5W in-box charger.

³Actual output and resulting charge speed will vary by the type and number of ports used simultaneously from 15W-20W.
